“ Nine years ago my family & I packed up our life to drive 2400 miles to start all over again so that you could have family near after Dad passed. I worked all night to support my family & spent all my free time helping you with all you needed when no one else would. Just as I had done hundreds of times before, when others wouldn't or couldn't, living 2 minutes away or 2400 miles. Never a thank you, never and I love you. It never mattered. Ten years ago, I was given the choice of removing my ailing father-in-law from the home I rented from you right after his wife's unexpected death, because " he didn't belong in a Kincade house". I was not afforded the choice to care for both you and him. We packed up our family again. Not once did you call, nor did I.

This week I got to sit back and watch as others were afforded keepsakes from yours and Dads home. Just as my Dad sat and watched the same from his parents home. My own sister, your daughter who helped you with nothing through the years did not even offer the opportunity to get a card I made you as a child or even a picture. Forcing her time as more important than the "special granddaughter " who was raised in that home. The sister who stood at my dying fathers bed and needed a plane tkt back immediately to care for a injured horse. The sister who worried more about a place to stay , car to drive and special food to eat while you were sick, before even coming to help you. The sister who made the decision to end your life with no treatment tried as you cried on the phone. You did not get the chance at the time you were given by the doctors.

A memory page is not a place to air all this. But others need to know the person you wished to hurt the most and the one you chose to reward & praise. In the end you did not hurt me. I stand tall. Knowing just as I did ten years ago leaving you a note. I thought about you on birthdays, holidays and every day in between. Prayed the Lord would look over you each and every day, i forgave you then as I do now. Had my peace and am at peace. Glad others got to see a side of you that I could only have hoped for. My wish for you is eternal life with our Father above, no pain, and the comfort of all those who are waiting for you. I loved you as my Mother than and now. We will meet again.

“ All i can say is that at least i will always have the peace of mind knowing i can look up and say that id rather still have them around than and material of financial thing of hers and she has seen how awful her daughter is and as i was forced to leave my clothes and keepsakes behind and asked why am i still here you need to leave.. My own what i call home because it is .. Its a place i called home for 30 years . no home is perfect nor no family is perfect and ours was far from perfect and im sure this all is a shock to others but my mom and I need to vent and get closer . As for myself i am far from getting mine but i pray it comes soon its a big reason for some of my issues and im tired and need peace ASAP

“ Nancy is my cousin - our fathers were brothers. Nancy called me for a ride to Bay City McLaren Hospital for outpatient surgery on July 6, 2020. We both live in Saginaw, but her surgeons had openings in Bay City. Then I took her again to Bay City McLaren Hospital on July 14, 2020, for her major surgery. I visited her every day there until she was transferred to Bay Special Care, which is a long-term acute care facility in Bay City. At this new place I would visit every other day, and the last of these days was Sunday, August 16 - her 85th birthday. Nancy loved Olive Garden Restaurant (Italian of course!) and I brought Eggplant Parmesan, and salad, and bread sticks, and dessert with a candle, and a musical card that played Happy Birthday! However, the facility had posted NO VISITORS - I assumed they had an employee or resident with COVID. The Security Guard took the Olive Garden bag of food and said she would get it to Nancy's room. That night I found out Nancy had died the day before her birthday! This was such a shock, but I think Nancy is laughing about who of the employees ate her birthday dinner, and enjoyed her card! Peace always,

“ It seems so un real to me still that for my entire life you were always there for me from the day i took my first breath all the way through 39 years of my life. You were always by my side no matter how wrong i was i was your Andrea your granddaughter but was raised like i was your own . We were both very different from each other bumped heads often but that never changed the fact that you would answer the phone and listen to everything i had to say . you watched me become a mother abd you loved my kids just as much as you loved me there was never a birthday or holiday you didn't shower them with things to make them feel special after kyleigh and Brianna and Damien came our special Arynn and since the day she first met you she took right to you she knew you were a very special person in my life. Your voice will be forever in my head and never forgotten i can still feel you smile when you knew it was me on the other end of the phone.. I Love You so much and you are pain free and finally able to rest ! I Love always , Andrea xxoo
